## **AMENDEMNT**

Please amend claims 1, 3, 34 and 35 as follows:

- 1. (Amended) A micronized pigment comprising a pigmentary base that has been treated with the products resulting from the reaction of organic alcohols and either P<sub>2</sub>O<sub>5</sub> or phosphoric acid.
- 3. (Amended) A micronized pigment comprising a pigmentary base that has been treated with an organo-acid phosphate compound having the formula:

$$(R-O)_x PO(OH)_y$$

wherein

x = 1 or 2;

y = 3 - x; and

R is an organic group having from 2 to 22 carbon atoms.

34. (Amended) A method for preparing a pigment, comprising combining a pigmentary base and an organo-acid phosphate compound, wherein the organo-acid phosphate compound comprises the reaction products of organic alcohols, and either P<sub>2</sub>O<sub>5</sub> or phosphoric acid and micronizing said pigmentary base that has been combined with said organo-acid phosphate compound.
